**St. Louis, MO (January 30, 2026)** Warson Brands, official licensee of Reebok Work footwear in Canada, continues to push the boundaries of comfort, performance, and protection with the launch of two new work footwear series: **Zig Kinetica Edge II Work** and **Beamer**. Designed for workers who move across demanding environments, both series combine athletic design with CSA protection to deliver lightweight and durable all-day comfort.

Inspired by trail performance and built for the jobsite, the **Zig Kinetica Edge II Work** series brings Reebok's iconic Zig Energy return technology into a waterproof, CSA certified work shoe and hiker. All versions feature DuraKick protective outer toe guards for added durability and one even comes equipped with an internal metatarsal guard. With rugged traction and responsive cushioning, this series is made for workers who take on tough terrain, changing conditions, and long days on their feet.

The **Beamer** series is built for workers who need protection with athletic comfort, especially in environments where impact protection and waterproof performance are critical. The extra-wide toe box for improved fit and comfort and internal metatarsal guard are essential for those working in harsh environments.

With these new launches, Reebok Work reinforces its commitment to Canadian workers across construction, manufacturing, warehousing, utilities, and outdoor trades. By blending athletic innovation with jobsite-tested protection, the **Zig Kinetica Edge II Work** and **Beamer** series deliver footwear that works as hard, and moves as fast, as the workers wearing them.

Retailers who would like to purchase the **Beamer** or **Zig Kinetica Edge II Work** Series, email Ken Retzke, [kretzke@warsonbrands.com](mailto:kretzke@warsonbrands.com)
